A&D supports recovery efforts in the areas affected by the Great Eastern Japan Earthquake

A&D would like to express its deepest condolences and sympathy to the people who have been affected by the Great Eastern Japan Earthquake that claimed numerous victims and caused tremendous damage.

To support post-disaster economic recovery in the affected areas, the entire A&D Group is providing assistance through a recovery support project and an emergency donation of our products to medical organizations.

1. Emergency donation of A&D products to medical organizations

A&D will donate the following products to medical organizations:

Professional blood pressure monitors:	500 units
Precision health scales:	200 units

2. Outline of the post-disaster recovery support project

A&D will start an in-house recovery assistance project to carry out the following program.

- Covered areas: Aomori prefecture, Iwate prefecture, Miyagi prefecture, Fukushima prefecture, Tochigi prefecture, Ibaraki prefecture and Chiba prefecture
- Free-of-charge inspection service for A&D's medical/weighing products
(To request an inspection, please contact one of our service representatives below.)
